

Water Solutions

Capability Booklet

“

Our care factor is entirely customer focused.
We guarantee quality outcomes every time you
work with us due to our strong partnership
mindset.

”

A little on us...

Think Water Darwin began in 2007 following the acquisition of Turf & Irrigation Darwin by Delta Water NT. At that time, our founder and now Managing Director, Adam Stockwell, saw a great opportunity in joining an emerging franchise group that soon become an international, leading group with more than 50 stores across Australia and New Zealand.

The young Stockwell family put their hearts and souls to build Think Water Darwin up to become the most trusted brand to deliver water related solutions, across Darwin & remote NT.

For over 12 years now Think Water Darwin has delivered large scale water solutions to;

- Mine Sites
- Civil Contractors
- Schools
- Local Communities
- Defence Facilities
- NT Govt
- Power Water
- Sporting Venues
- Town Councils
- Agricultural Farms
- Abattoirs
- Oil & Gas Facilities
- and Tourism Hotspots.

Think Water Darwin is part of an industry-leading franchise group with more than 50+ locally owned stores across Australia and New Zealand. This means that Think Water Darwin is supported with national level supply arrangements, support, and national-level training.

Think Water Darwin is made up of specialists with experience in every sector, that have the knowledge and passion to utilise the world's latest technology to achieve the required result. On top of our staff's ability, is an attitude and care factor that is entirely customer focused. Our staff will provide the right answer no matter what water problem you bring to us. We guarantee quality outcomes every time, due to our strong partnership mindset.

We continuously improve our design, supply, installation & advisory process to provide better quality outcomes for our customers & ensure practical, efficient water solutions to any water application.

Our Water solutions

Our Capabilities

“

Think Water Darwin specialise in supplying water efficient pumping, irrigation, pressure cleaners, water purification and filtration systems. Think Water Darwin has successfully provided services to Residential, Commercial, Industrial and Mining customers for years.

”

Design

With over 50 years of NT experience in water system design, Think Water Darwin can customise the most practical, efficient system that best suits your situation & application.

Supply

We source our products from the world's most trusted, leading brands and we have the supply support of a national franchise.

Installation

With decades of collective in-field installation experience across the water industry, we offer installation service customised to your application.

Servicing

From customer service, to installation service, Think Water Darwin's support doesn't end after the point of sale. Call us anytime, we're always happy to help.

We want to help our customers meet their objectives in the most practical and efficient way, therefore Think Water Darwin will be with you every step of the way. That's a Think Water guarantee.

Our Services

Pump Systems

Residential

- Water supply pump systems for your mains or rainwater tank.

Our Commitment To You

1 We are committed to workplace health & safety

Think Water Darwin believes the safety, health & welfare of not only our staff, but our customers is of paramount importance.

- Management regularly review our practices in our store and out of it and take all reasonable and practical actions to provide a safe environment for everyone within all Australia Standard requirements.
- Think Water Darwin often hold training sessions and modules to ensure our staff are up to date on the latest advice and awareness of occupational health and safety.

2 We are committed to Quality Assurance

Our quality of services and products is the cornerstone of our reputation. We are always looking for ways to ensure our customers satisfaction from start to finish.

- Our policy is to develop and maintain quality throughout our operations in accordance with the International Organisation for Standardisation.
- All Think Water employees are required and committed to maintaining the highest standard of performance when dealing with our customers.

3 We are committed to the latest Technology

Think Water Darwin are always searching and investing in the latest and greatest technology.

- By keeping up to date on the ever-changing markets, we can assure our customers the products we put in place aren't outdated.
- With great communication between us and our key suppliers, we will always have the newest technology as soon as it is available.

4 We are committed to Sustainable Development

We are always looking at ways to reduce our environmental impact and waste footprint.

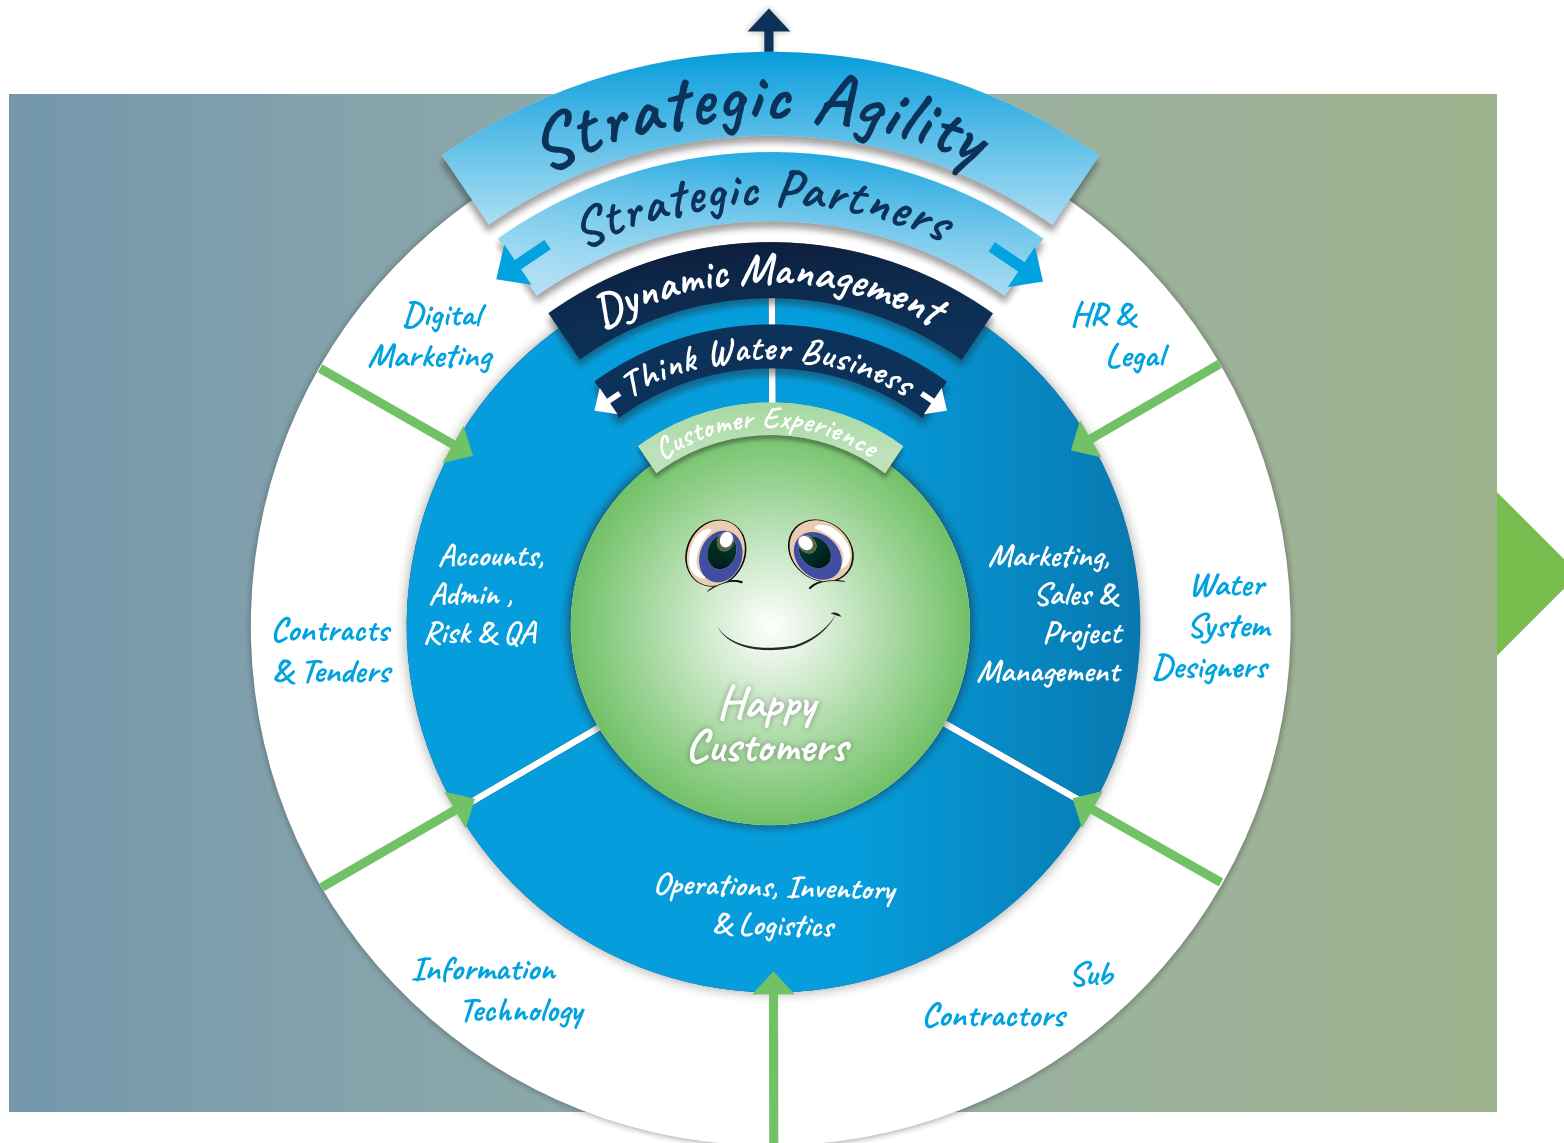

- Think Water Darwin have introduced processes to lower waste, water and paper usage inside our store and on our worksites.
- Our team will always recommend products that are known for their water conservation before anything else.

Organisational Focus & Growth

“

We believe our growth comes from, our customer centric focus to continually improve, along with our commitment to the community.

”

GROWTH OF
700%
FINANCIALLY

Having improved our business financially by 700% since inception, we hope to be able to continue being the Northern Territory's first choice local water experts for many years to come.

Thinking of kickstarting your next project?
