Filtration & Water Treatment

Keeping your source of water contamination free and crystal clear all Summer long is a must. We stock filtration systems from the world's most trusted brands like Puretec and Heritage Water Tanks.

TankSafe™

Disinfecting your Rainwater and giving you Safe, Odourless Water.

Treats up to 240,000 litres of rainwater. An Innovative product that can kill up to 99.9% of all germs, bacteria and viruses in your stored water.

- Safe alternative to harmful chemicals such as chlorine that leaves carcinogens in the water.
- Colourless and odourless making it excellent for drinking water.

AVAILABLE IN 1L, 2L, 5L & 15L

FROM \$35.94

BoreSafe™

Bore cleaning granules, designed to fight the war against Dirty Bore Water!

Reduces blockages, iron deposits, and restores flow from bores.

- Fast and effective way to clean bore water.
- New and improved more powerful granular formula.
- Environmentally friendly - Biodegradable.
- With regular use, your bore can stay clean.
- Includes 30 ml test kit.

AVAILABLE IN 5KG, 10KG & 20KG

FROM \$95.32

Puretec SOL Water Softener

THE SMARTEST WATER SOFTENER ON THE MARKET.

What is Hard Water? ✗

Hard water is water that contains dissolved minerals most commonly found in Bore water, such as Limestone, and Iron. Hard water is bad for your hair, skin and can badly damage appliances! Hard Water can sometimes be dark in colour and require a water softener to remedy.

What is Soft Water? ✓

Soft Water is water that reacts well with soap and detergents due to lack of harmful minerals, making it easy to clean bathrooms, showers and dishes. It's also incredibly beneficial to the health of your skin and hair. A water softener will convert your existing harmful hard water into something amazing!

Clear
your Water
of Iron

SOL30-E3

FROM \$1800.00

A WaterMark approved water softener to reduce scaling and spotting in your home or building. Insist on a certified system.

Hard water is water that contains dissolved minerals such as limestone, iron, sulphur, magnesium and calcium. If these minerals are not removed from your water, they will cause scaling, eventually blocking plumbing and shortening the life of appliances - particularly hot water units, dishwashers, washing machines, etc.

Our team is experienced in all kinds of filtration and water treatment systems for every application. Visit us in store or contact us anytime.
